About Us

CLOVER COMMUNITY SCHOOL

Clover Community School is an independent, nonprofit school for different learners in Northwest Arkansas. Our 5-acre farm-like campus provides a unique learning environment for student-centered education focusing on social and emotional development.

Our student body is composed of children from diverse backgrounds, encompassing a wide range of experiences and needs, including learning disabilities, cognitive challenges, emotional and social difficulties, and neurodiversity. We are proud to be a truly inclusive and diverse community.

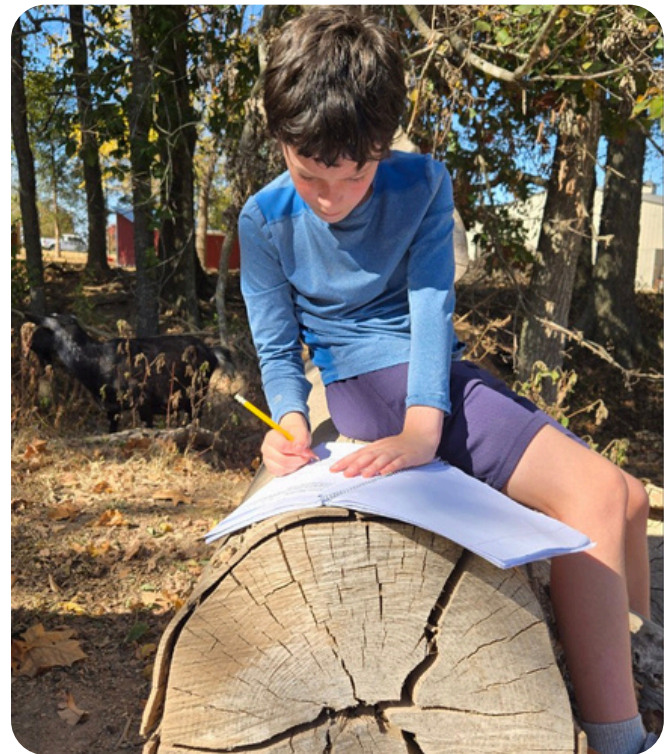

Farm animals, garden classrooms, certified special education teachers, small class sizes, nature-based academics, and flexible learning spaces create opportunities for students to develop the skills they need to live independent, purposeful lives.

OUR VISION

Every child enters adulthood with the skills necessary to live productive and independent lives of purpose.

OUR MISSION

To provide a holistic, multidisciplinary education for learners of all abilities.
